

2011 Licensed Non-Wood/Non-Composite Bats

2011 Licensed Non-Wood/Non-Composite Bats

The following is a list of non-wood/non-composite baseball bats with a 2 1/4 inch maximum diameter that are currently licensed for use in the baseball divisions of Little League (Little League [Majors] Division and below). Little League placed a moratorium on all composite-barreled baseball bats for these divisions, which took effect on Dec. 30, 2010. A list of those composite-barreled bats that have received a waiver of that moratorium is available at <http://www.littleleague.org/learn/equipment/approvedcombatssmall.htm>

Little League reserves the right to add to this list or make other changes as new information arises. This list was last updated on May 11, 2011.

Important: This is a list of licensed bats only, not a list of all possible bats that could be used. Provided the bat meets the specifications of Rule 1.10 for the division of play, and provided the bat is not subject to the moratorium, it may be used.

As always, any bat, even those appearing on this list, must meet all the specifications of Rule 1.10 for the particular division of play, including specifications regarding length, weight, diameter, markings, etc.
